 FILE *Dissemination*

1. Field response to reference (b) indicates improvement in the timely reporting of hospitalizations of employees and/or dependents. There remain instances, however, where such cases are not reported, or not reported in a timely way.

2. Headquarters guidance should be sought prior to hospitalization. In cases of emergency where time does not permit such action, headquarters is to be notified as soon as possible of the circumstances of the case.

3. In the interest of the best medical support for Organization overseas activities and to permit the Office of Medical Services to monitor each case of hospitalization, it is again requested that the reporting requirements of references (a) and (b) be carefully observed.
